

NO WELDING OR PAINTING REQUIRED!

## #6070 INSTA MANUFACTURE REPLACEMENT VENT (SMALL)

### #6070 INSTA MANUFACTURE REPLACEMENT VENT (SMALL) DESCRIPTION:

Vents are a must-have for any container, use these vents to replace the manufacture vents on a shipping container. Adding vents to your shipping container will help prevent moisture build-up, eliminate dangerous fumes and chemicals that can lead to fire or explosion, and allow optimal airflow. You should vent your container anytime you are storing household items, heavy machinery and automobiles, dry goods, and chemicals/ pressurized gasses. It is recommended for each container to have two to six vents, depending on the length of the container.

INSTA Container Modifications is a proud charter member of the National Portable Storage Association (NPSA).

**WARNING** - All products that require installation or fabrication should never be done until you have the product in hand to take exact measurements. While every attempt is made to make sure product specifications are accurate, there is the possibility the products have been updated or a small variance between production made the measurement off. Installation of products may require some fabrication experience, and in no way does warranty cover installation mistakes.
